# SUMMARIZED REFERENCE GUIDE

### SECTION 100 : FLOORING PRODUCTS

ADCO Chemfloor 121	Cementitious-based polyurethane-modified flooring system, different colours
ADCO Polycrete 131	Cementitious-based polymer acrylate-modified flooring system, different colours
ADCO Polycrete 134	Cementitious-based polymer acrylate-modified flooring system, incorporating metallic fibre reinforcement
ADCO Labicem 141	Bitumen-modified overlay flooring system
ADCO FloorArt 151D	Coloured shake-on cementitious powder, different colours
ADCO CemArt 152-45	4-5mm Coloured cementitious overlay powder and liquid, different colours, including bonding slurry
ADCO CemArt 152-68	6-8mm Coloured cementitious overlay powder and liquid, different colours, including bonding slurry
ADCO Epoxy Scream 161	Epoxy-based flooring systems
ADCO FloorHard 171	Cementitious non-metallic floor hardener, different colours
ADCO FloorHard 174	Cementitious metallic aggregate floor hardener
ADCO Floorskim 181	Cementitious floor skim to featheredge application
ADCO Screesred 185L, P	Self-smoothing cementitious-based skimming compound
ADCO Micon 2530	Pre-mix structural floor screed
ADCO LWC 1250	Pre-mix lightweight concrete

### TILING PRODUCTS

ADCO Primo Tile Adhesive	Standard / Advanced / High-spec / Fast-set
ADCO Primo Tile Adhesive	White marble
ADCO Primoflex	Pre-mixed paste
ADCO Primo Tilegrout	Various colours
ADCO Primo Quarry Grout	Various colours
ADCO Tilebond	
ADCO Keyband	

### SECTION 500 : WATERPROOFING, COATINGS

ADCO Bitkote 511	Rubberized bitumen
ADCO Bitkote 512	Brick-sealing bituminous compound
ADCO Cemkote 521W	Cementitious waterproofing coating with crack bridging properties
ADCO Cemkote 521S	Cementitious protective coating with waterproofing properties (different colours)
ADCO Conproof 524P	Powder waterproofing additive for plaster and concrete
ADCO Waterblock 525	Instant-setting waterstop powder
ADCOchem 531	Water-based epoxy coating
ADCOchem 532	High-solids solvent-based epoxy coating
ADCOchem 533	High-solids solvent-based epoxy coating, high gloss, industrial
ADCO Akote 541	Acrylic waterproofing coating
ADCO ABkote 542	Acrylic bitumen waterproofing coating
ADCOchem 552	2-Component polyurethane foodgrade paint
ADCOchem 552A	2-Component polyurethane acrylic paint
ADCOchem 553	1-Component, solvent-based acrylic co-polymer anti-carbonation and protective coating
ADCOchem 554	Polyurethane-based coating, high gloss
ADCO Ceramicote 570	Ceramic bead, reflective coating
ADCO Casall 580	Torch-on waterproofing systems
ADCO Membrane 595	Polyester
ADCO Membrane 596	Polypropylene

### SECTION 200 : LIQUID SYSTEMS

ADCOcure Acrylic 211	Acrylic curing compound
ADCOcure Petroleum 212	Concrete curing compound based on petroleum resin, type 1/2
ADCO Mould Release P 221	Petroleum-based shutter release liquid
ADCO Mould Release G 222	Emulsion shutter release liquid
ADCOchem 225	Solvent-based, penetrating wood protection and release agent
ADCObond 231	High-performance latex-based bonding agent
ADCO Floor Finishing Liquid 233	Latex-based finishing aid for concrete surfaces (System 151, 171)
ADCO Plasterbond 234	Chemical key for improved plasterbond or plaster onto friable surfaces
ADCOchem 236	Plaster additive
ADCO Conproof 237	Liquid waterproofing additive
ADCO Kayform 238	Powder component for splatterdash key coat
ADCO Prebond 239	Liquid treatment for friable masonry / concrete surface
ADCOetch 241	Acid-based etching compound as floor preparation
ADCOchem 242	Galvanizing cleaner paste
ADCOseal 251	Water-based acrylic sealer
ADCOseal 253	Solvent-based acrylic sealer
ADCOseal 255	Silicate treatment (Hardening and Dust-proofing Liquid)
ADCOseal 258	Siloxane-based sealing system
ADCOseal 259	Twin-pack polyurethane sealer
ADCOprime 261	2-Component primer for joint sealing systems
ADCOprime 265	Epoxy primer for damp substrates, solvent-based
ADCOprime 266	Epoxy primer for damp substrates, water-based
ADCOprime 269	1-Component polyurethane primer
ADCO Bonding Slurry 271	Bonding slurry kit
ADCOprime PUZ 284	Single-component polyurethane zinc steel primer
ADCO Polycem 288	Liquid additive for polymer-modified screeds, overlays, etc
ADCO Liquid 291	Special liquid cleaner

### SECTION 600 : EPOXY MATERIALS

ADCOpoxy 611	Dry-to-dry adhesive, concrete-to-concrete, steel-to-concrete
ADCOpoxy 612	Wet-to-dry adhesive of old-to-new concrete structural bonding
ADCOpoxy 613	Low viscosity crack injection epoxy liquid
ADCOpoxy 613C	Low viscosity crack injection epoxy liquid with crack bridging properties
ADCOpoxy 614	3-Component low viscosity epoxy grouting system
ADCOpoxy 632	Epoxy tile grout (3-Component)
ADCOpoxy 634	3-Component epoxy repair mortar

### SECTION 300 : GROUTS, MORTARS, PLASTERS

ADCO Cemgrout 310	Cementitious-based non-shrink, high-strength grout
ADCO Cemgrout 310F	Cementitious-based non-shrink, high-strength grout, fibre-reinforced
ADCO Cemgrout 310A	Cementitious-based non-shrink, high-strength grout for large volume applications
ADCO Cemgrout 310AF	Cementitious-based non-shrink, high-strength grout for large volume applications, fibre-reinforced
ADCO Cemgrout 312	Cementitious-based pumpable marine grout
ADCO Cemgrout 315A	Cementitious-based non-shrink mid-strength grout for large volume applications
ADCO Cemgrout 316A	Cementitious-based non-shrink, expansive grout with controlled set characteristics
ADCO Cemgrout 317	Cementitious-based instant setting grout
ADCO Plastrep 321	Cementitious polymer-modified fibre-reinforced structural mortar
ADCO Plastrep 321MR	Cementitious polymer-modified fibre-reinforced structural mortar to featheredge application
ADCO Poolplast 322	Marble-based pool plaster in different colours
ADCO Plastrep 323	Formulated structural plaster kit for application onto areas treated for rising damp
ADCO Walkskim 325	Cementitious skimming compound to featheredge application
ADCO Walkskim 324	Polymer Skimming Compound in kit form
ADCO Colplast Stucco 341	Cementitious-based skimming plaster, in different colours
ADCO Plastshield 370	3-Part plastering system for x-ray shielding
ADCOgrout 905PU 391	High chemical-resistant polyurethane grouting compound, in different colours
ADCOchem 3614	Refractory plaster 1400°C
ADCOchem 3616	Refractory castable 1600°C
ADCO Mouldpowder 3620	Refractory coating for aggregate moulds
ADCOchem 3660	Air-setting refractory mortar 1700°C

### SECTION 700 : ADMIXTURES

ADCOaccel 711	Liquid accelerator for non-steel-reinforced concrete
ADCOaccel 712	Liquid accelerator for steel-reinforced concrete
ADCOplast 713SD	Liquid wetting agent and compaction aid for semi-dry mixes
ADCOchem 718	Dispersant admixture for clay-constituent mixes
ADCOair 720	Liquid air entraining
ADCO Minplas 732	Liquid admixture as water-reducing plasticizer and pump aid in mine backfill
ADCOaccel 741P	Powdered accelerator for non-reinforced concrete
ADCO Hydrocon 745P	Powdered admixture for underwater concrete
ADCOchem 748	Powdered admixture for shrinkage compensation incorporating polystyrene
ADCOchem 753	Wetting agent for lightweight concrete incorporating polystyrene
ADCOchem 781	Liquid plasticizer and accelerator for semi-dry mixes
ADCOchem 781-2	Liquid plasticizer and accelerator for semi-dry mixes
ADCOchem 781-3	Liquid plasticizer and accelerator for steel-containing members
ADCOchem 782	Liquid water-reducing admixture, controlled set characteristics
ADCOchem 782-4	Superplasticizer for ready-mix concrete production
ADCOchem 785	Liquid high range water-reducing admixture
ADCOchem 787	Liquid retarding admixture
ADCOchem 789	Liquid accelerating admixture
ADCO Dustbond 790	Chemical binding agent for dust control and stabilization

### SECTION 400 : SEALING SYSTEMS & ACCESSORIES

ADCOseal 412H	2-Component polyurethane sealer high viscosity / gun grade
ADCOseal 412L	2-Component polyurethane sealer low viscosity / pourable grade
ADCOseal 415	1-Component gun grade polyurethane sealer in cartridge
ADCOseal 419	2-Component high chemical-resistant sealer
ADCOseal 422H	2-Component polysulphide sealer high viscosity / gun grade
ADCOseal 422L	2-Component polysulphide sealer low viscosity / pourable grade
ADCOseal 431	Modified silicate crack sealer
ADCOseal 436	Hot-pour bitumen sealer
ADCOseal 437	Bitumen mastic sealing compound
ADCOseal 440	1-Component Highway Sealer
ADCOseal 488	2-Component pourable material for joint edge support in high traffic exposure
ADCO Applicator LB 495	Long barrel applicator gun with nozzles
ADCO Follower Plate 496	Follower Plate
ADCO Backing Cord 497	Polyethylene backing cord, sizes 6mm – 60mm
ADCOjoint 502	Asphaltic Plug Bridge Joint System
ADCOjoint 856	Newprene pressfit compression joint seals
ADCO Jointext LD	Closed-cell polyethylene joint-forming material
ADCO Jointext HD	High-density closed-cell polyethylene joint-forming material

### SECTION 800 : OTHER PRODUCTS

Dura-Pozz 801	SABS pozzolanic cement extender
Super-Pozz 802	Speciality pozzolan
Road Lime 805	
Lime 806	
White Cement 808	
High Alumina Cement 810	Grey HAC
High Alumina Cement 811	White HAC
ADCOpowder 812	Concrete additive for conductive properties
ADCOpowder 812/30PP	Ready-mixed dry powder mix incorporating ADCOpowder 812
ADCO DryWall 815	1-Component high viscosity silane / siloxane paste for treatment of rising damp
ADCO Polyfibre 820	Polypropylene fibre
ADCO Fibre 824L	Loose ceramic / refractory fibre 1260°C
ADCO Pigment 831	Yellow
ADCO Pigment 832	Red
ADCO Pigment 833	Tan
ADCO Pigment 834	Brown
ADCO Pigment 835	Black
ADCO Pigment 836	Black 2
ADCO Pigment 837	Green
ADCO Pigment 838	Blue
ADCO Pigment 839	White
ADCO PVC Reanguard R 841-1	External PVC waterstop for construction joints
ADCO PVC Reanguard S 841-2	External PVC waterstop for expansion joints
ADCO PVC Dumbell	Internal PVC waterstop for construction joints
ADCO PVC Centrebulb	Internal PVC waterstop for expansion joints
ADCOswell 851	Expanding waterstop strip

**ALSO AVAILABLE :**  
 Surveying equipment : Autolevels, Theodolites, Tripods, Measuring staffs, etc  
 Construction plant equipment : Mixing, compaction, vibration, finishing, etc  
 Specialized concrete equipment : Scabblers, scarifiers, floor grinders, etc  
 Concrete Cover Spacers : ADSCO Conspace (vertical and horizontal)
